WHO WE ARE/ WHAT WE DO.

The Detroit Wayne Integrated Health Network is compassionate and committed to the 122,000 children and adults it serves in Detroit and Wayne County. We understand the immense responsibility we have been given and we go above and beyond in supporting the people we serve and the hundreds of Providers in our System of Care. Our Provider Network supports and serves individuals with serious mental illness, children with serious emotional disturbance, people with autism, individuals with intellectual and developmental disabilities and those with substance use disorder.

WHO WE ARE/WHAT WE DO.

Autism Benefits

Autism Spectrum Disorder (ASD) is a developmental disability and to receive Applied Behavior Analysis (ABA) services in Wayne County, the person must be screened by a primary care physician or the DWIHN Access Center.

ABA is an intensive, behaviorally-based treatment that uses various techniques to bring about meaningful and positive changes in the communication, social interaction, and repetitive/restrictive behaviors that are typical of ASD. We work with ASD Providers and offer services to people up to 21 years of age.

Mental Health First Aid (MHFA), Suicide Prevention Training and Veterans Services

MHFA teaches people methods of helping someone who is in the early stages of a mental health challenge or crisis.

Question, Persuade, Refer (QPR) Suicide Prevention training is a clinically proven approach to recognizing signs of suicide and responding effectively.

Our **Veteran Services** program supports all veterans regardless of discharge status, those who do not meet service eligibility, who are not eligible for Veterans Administration (VA) services and who do not want traditional support paths.

WHO WE ARE/WHAT WE DO.
