

TALK.LISTEN.CONNECT.

Free Parenting Mini Workshop Series hosted by The Guidance Center

Friday, February 9, 2024 | 9-10:30am

It's important to encourage your child to connect with their peers, create friendships, and have healthy relationships with others, but even more importantly to appreciate quality and not quantity in the relationships they build. Come join us to learn more ways to have simple conversations that support good friendships with your children ages 8-15.

Teaching Our Kids to Recognize and Cultivate Healthy Friendships

- Join us to learn:
- What do friendships look like to your child?
 - Define healthy and unhealthy friendships through the ages
 - Red flags and uncomfortable conversations with our children

Presented by Melissa A. Panter, LLBSW, CPS-D, Prevention Specialist Trainer and Jenna Malallah B.S., Prevention Specialist through The Guidance Center

This workshop will be recorded.
