April 2, 2021

Dear Provider Network,

Detroit Wayne Integrated Health Network (DWIHN) continues to recognize the complexity of the H2015/T2027 transition in unlicensed settings. DWIHN has continued to hold multiple internal meetings to assess this transition. We have received a large amount of feedback from providers regarding the authorization units and rates.

DWIHN continues to work on a comprehensive approach that can address these concerns while also meeting all MDHHS requirements. As a result, providers will be able to continue to use the same billing process utilized since October 1, 2020. Providers can submit claims without prior authorization by providing the U and S modifiers during claims submission. This process will remain in effect until May 31, 2021.

Clinically Responsible Service Providers (CRSP) should continue to submit authorizations for H2x15 and T2x27 and ensure the IPOS clearly reflects any 24hr service situations, including overnight monitoring (T2027) per medical necessity.

DWIHN recognizes the challenges this transition has brought and we appreciate your ongoing collaboration.

Sincerely,

Melissa Moody MS, LLP
