BULLETIN NUMBER: 24-005

ISSUED/REVISED: 04/05/2024

EFFECTIVE: 04/01/2024

SUBJECT: “Ux” Modifiers for the Number of Members
(i.e., UN, UP, UQ, UR, US)

SERVICE AFFECTED: Residential and Outpatient Services

BACKGROUND

In Fiscal Year 2021 MDHHS deployed new “Ux “ modifiers to report the number of members served simultaneously. It was not clear if this referred to the total number of members served simultaneously, or if it referred to only the members served by the local CMH.

PROCEDURE

On April 1, 2024, MDHHS issued an updated code chart. Per the updated code chart, the “Ux” modifiers referred to the total number of members served simultaneously, regardless of which CMH is funding the services.

BILLING

When submitting claims for a procedure code that requires using the “Ux” modifiers, the biller must select the “Ux” modifier that represents the total number of members served.
