

MichiCANS

Michigan's Child and Adolescent Needs and Strengths Assessment

Michigan CANS General Overview
7/9/2024

Introductions

GETTING TO KNOW EACH OTHER

- Share your name, role, and any experience you have with the TCOM tool(s) in your introduction.
- Question or concern about the MichiCANS you would like addressed
- Hopes for the out time together

Agenda

- TCOM Overview
- Intro to the MichiCANS
 - Domains and Items
 - Practice Application
 - Data Application
 - Certification

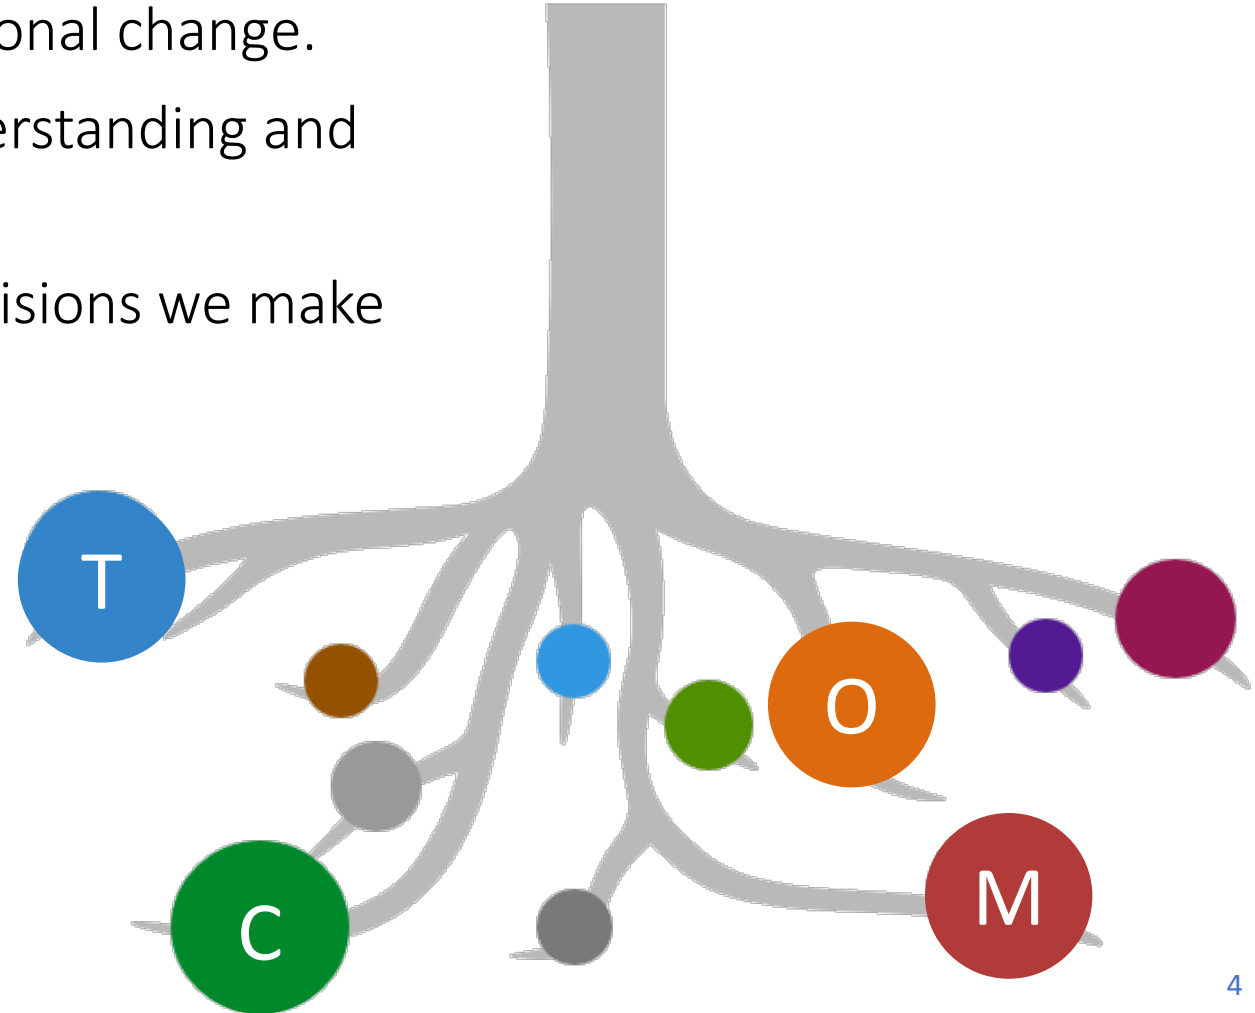

A Philosophy from Which Change Can Grow

Transformational: Our work is focused on personal change.

Collaborative: We must develop a shared understanding and vision.

Outcomes: What we measure impacts the decisions we make about the strategies and interventions we use.

Management: Information gathered about children and families is used in all aspects of managing the system from planning with families and children, to supervision of the workforce, and program/system operations.

TCOM Guiding Values

Underpinnings of
the MichiCANS

- All assessments and interventions should be culturally responsive and respectful.
- People should have a voice and choice regarding their participation in assessments and interventions.
- All interventions should be personalized, respectful and have demonstrative value to the people they serve.

- Collaborative processes (inclusive of individual adults, children, and families) should be used for all decisions at all levels of the system.
- Consensus on action is the primary outcome of collaborative processes.
- Information about the people served and their personal change should always inform decision-making at all levels of the system.

TCOM Practice Approach

Underpinnings
of the
MichiCANS

Transformational Collaborative Outcomes Management (TCOM)

- **Philosophy**—always return to the shared vision. In the child serving system the shared vision are the need and strengths of children and families we serve.
- **Strategy**—represent the shared vision and communicate it throughout the system with a standard language/assessment
- **Tactics**—activities that promote the philosophy at all the levels of the system simultaneously
- **Techniques** – skills that promote the integration of the strategy into practice settings

TRANSFORMATIONS

Helping people change in some notable way

“You Can’t Manage What You Don’t Measure.”

How is a Transformational System Different?

	Service System	Transformational System
Assessment	Eligibility Focus: Manage 'hello' (Access)	Change Focus: Manage 'hello' and 'goodbye' (Access and Egress)
Documentation	Program Focused	Person Focused
Supervision	Productivity and Compliance	Teaching Efficiency/Effectiveness
Productivity	Caseload Management	Workload Management
Population Served	Incentives to serve the LEAST challenging	Incentives to serve the MOST challenging
Priority	Serve as many people as possible, as inexpensively as possible	Serve as many people as possible, as effectively as possible
Change Approach	Engineer change through compliance	Engineer change through shared aspirations

A Strategy for Shifting towards a Transformational System

Service System Approach

Transformational System Approach

System Management

- What did we do?
- What did people get?

- What impact did we have?
- What worked?

A Strategy for Shifting towards a Transformational System

Service System Approach

Transformational System Approach

- What did we do?
- What did people get?

- What impact did we have?
- What worked?

Supervision

- Time and Task Management
- Compliance

- Teaching / Skill Development
- Managing effectiveness

Navigating the Journey Through Care

Transformational Collaborative Outcomes Management

- How can we successfully manage the inherent complexity of our work?
 - How do ensure that children and families benefit from all of the efforts that are put towards enhancing their well-being?

Going from Process to Impact

Is TCOM/MichiCANS a Change in How We Work?

- Experience and research has demonstrated that collaborative practices are at the heart of effective change.
- People vary tremendously in their use of collaborative, data-informed practices.
- TCOM provides a pathway by which people can get the formal feedback necessary to develop expertise.

We Need a Consensus- Based Approach

- Supports the development of effective working relationships by establishing the common purpose/shared vision.
- Engages people seeking help to be active participants in the process.
- Results in a more accurate assessment of outcomes.

Approaches to Working in Complex Systems

Human expertise in complex systems is constantly changing

Our work is not about memorizing a series of steps or tasks

We are coaching people to creatively and successfully tackle unstructured problems.

We are continually on a process of learning and skill development.

Expert Perspective Tools

Information Gathering

Experts Complete Tools

Measurement Tool

Collaborative and Consensus Based

Tools such as the MichiCANS are to be completed as part of a group process with core stakeholders. Multiple points of view are represented, and consensus on the level of action needed to address each identified need, useful strength and strength to build leads to a clear, mutually agreeable action plan.

The MichiCANS Assessment

Life Functioning, Strengths, Behavioral / Emotional Health, Risk Factors and Behaviors, and Cultural Factors

What Is The MichiCANS?

The TCOM tools are **information integration tools** used to identify the **needs and strengths** of a child/youth or adult and their families and support communication.

The TCOM tools underlying philosophy and approach are **person-centered**, using **multiple perspectives** to achieve **collaborative, consensus-based** assessment.

What Is The MichiCANS? (cont.)

The tools continuously align the work of all persons with the identified strengths and needs of children and families at all levels of the system.

It is a common language framework that aids system understanding of presenting issues, impact, and effectiveness across multiple levels—family, program, system.

What Is The MichiCANS? (cont.)

MichiCANS Screener: CMHC ACCESS/Intake Centers

Used to guide screening, initial
assessment and referrals for behavioral
health services.

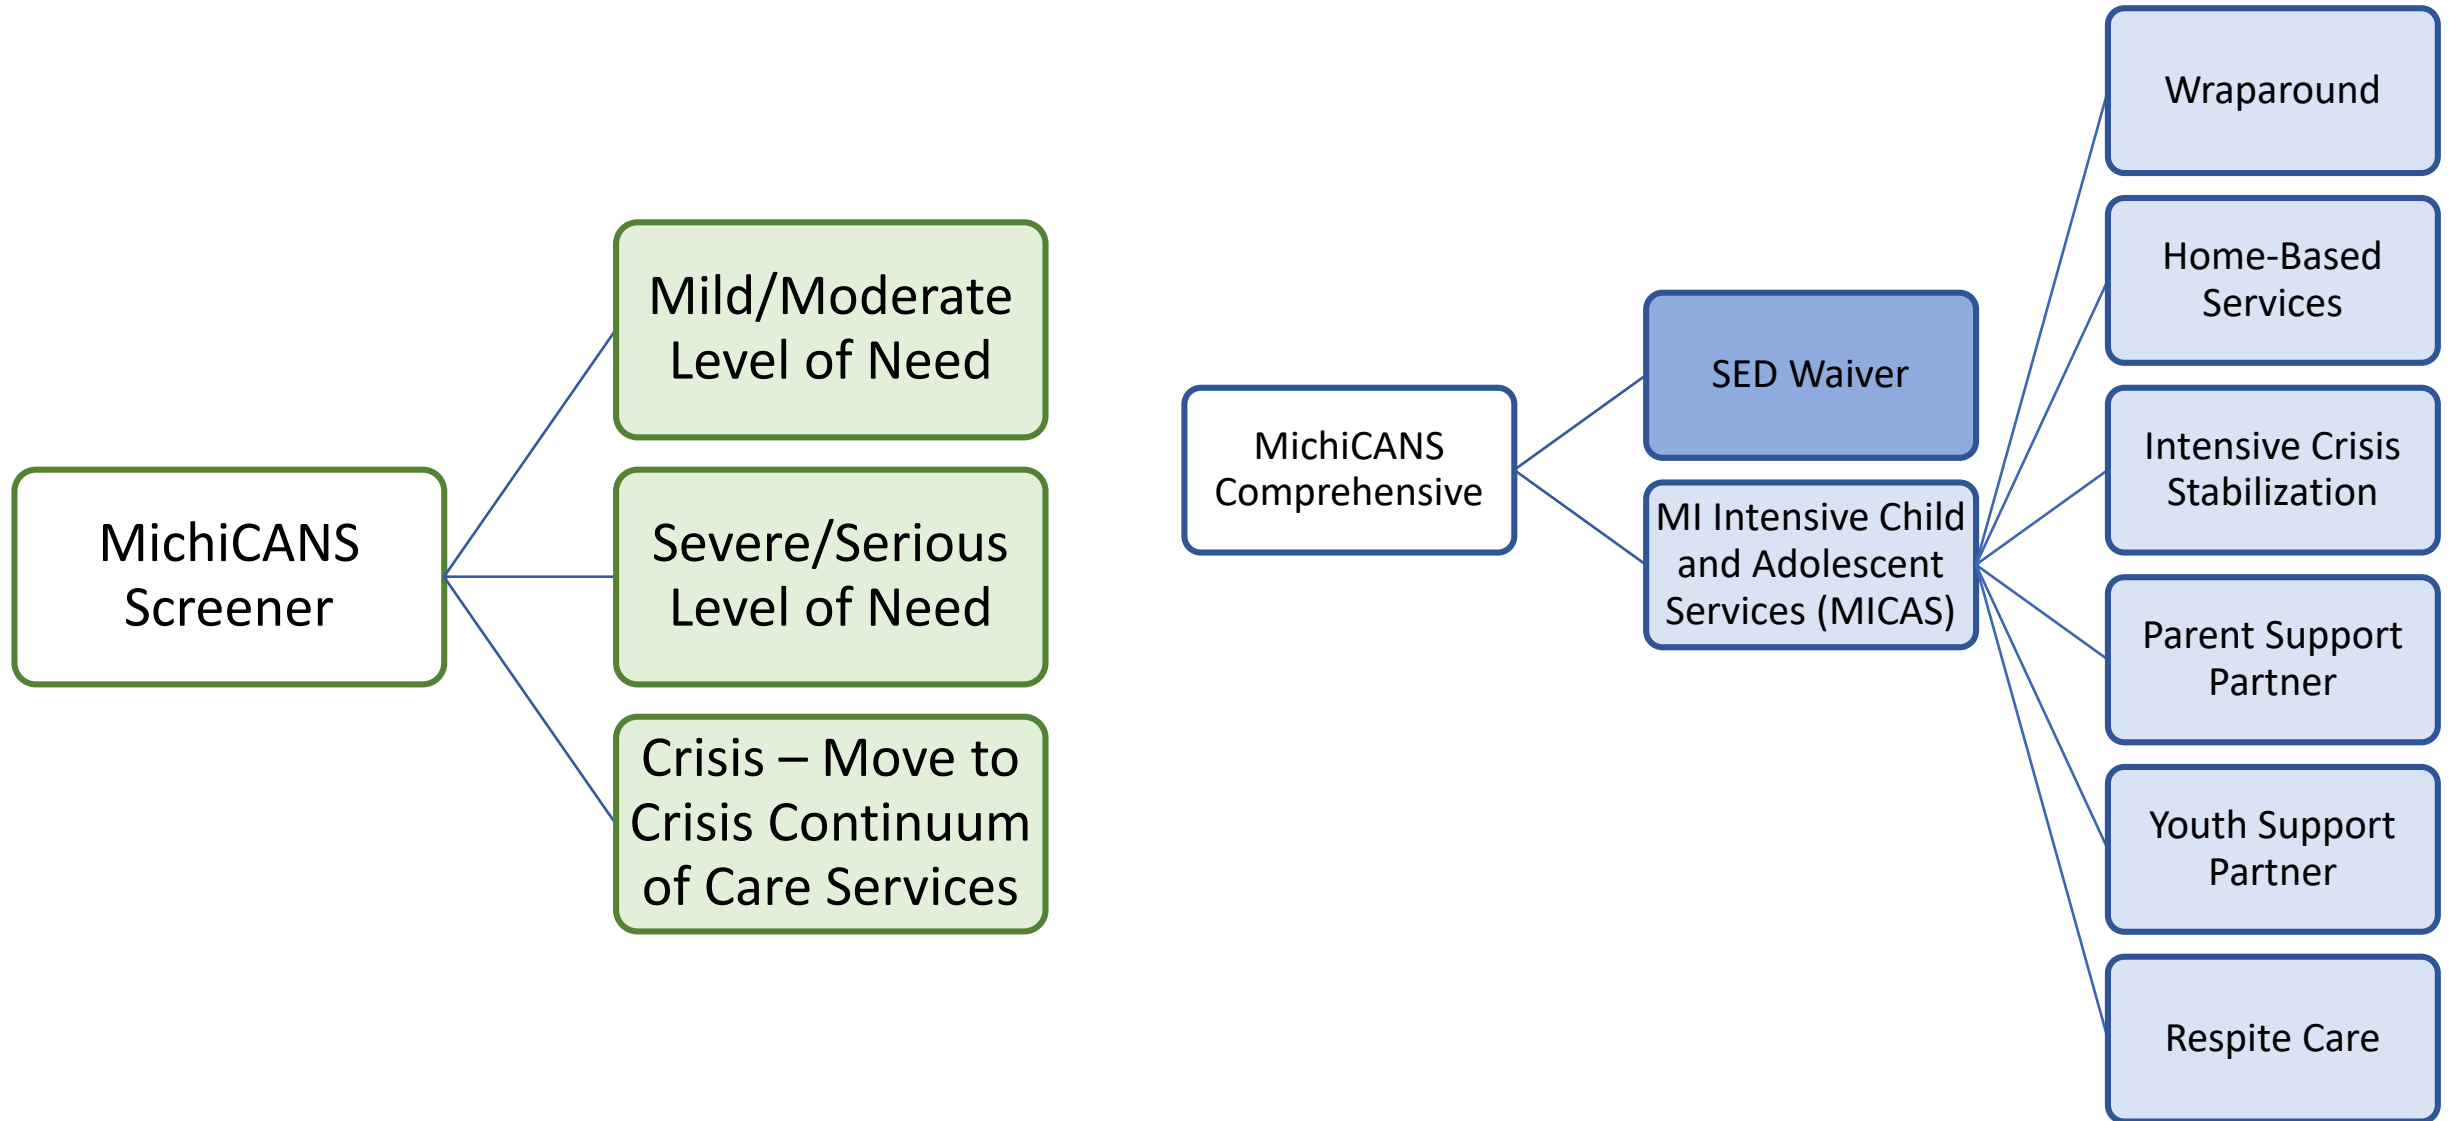

What Is The MichiCANS? (cont.)

MichiCANS Comprehensive: Clinical and Care Coordination Providers – Therapists, Case Managers, Wraparound Facilitators

- Ongoing assessment of youth and family functioning.
- Guides treatment and service planning across all life domains at youth and family team level.
- Monitors outcomes and quality improvement
- To be completed every 3 months and at the time of transition.

What Is The MichiCANS? (cont.)

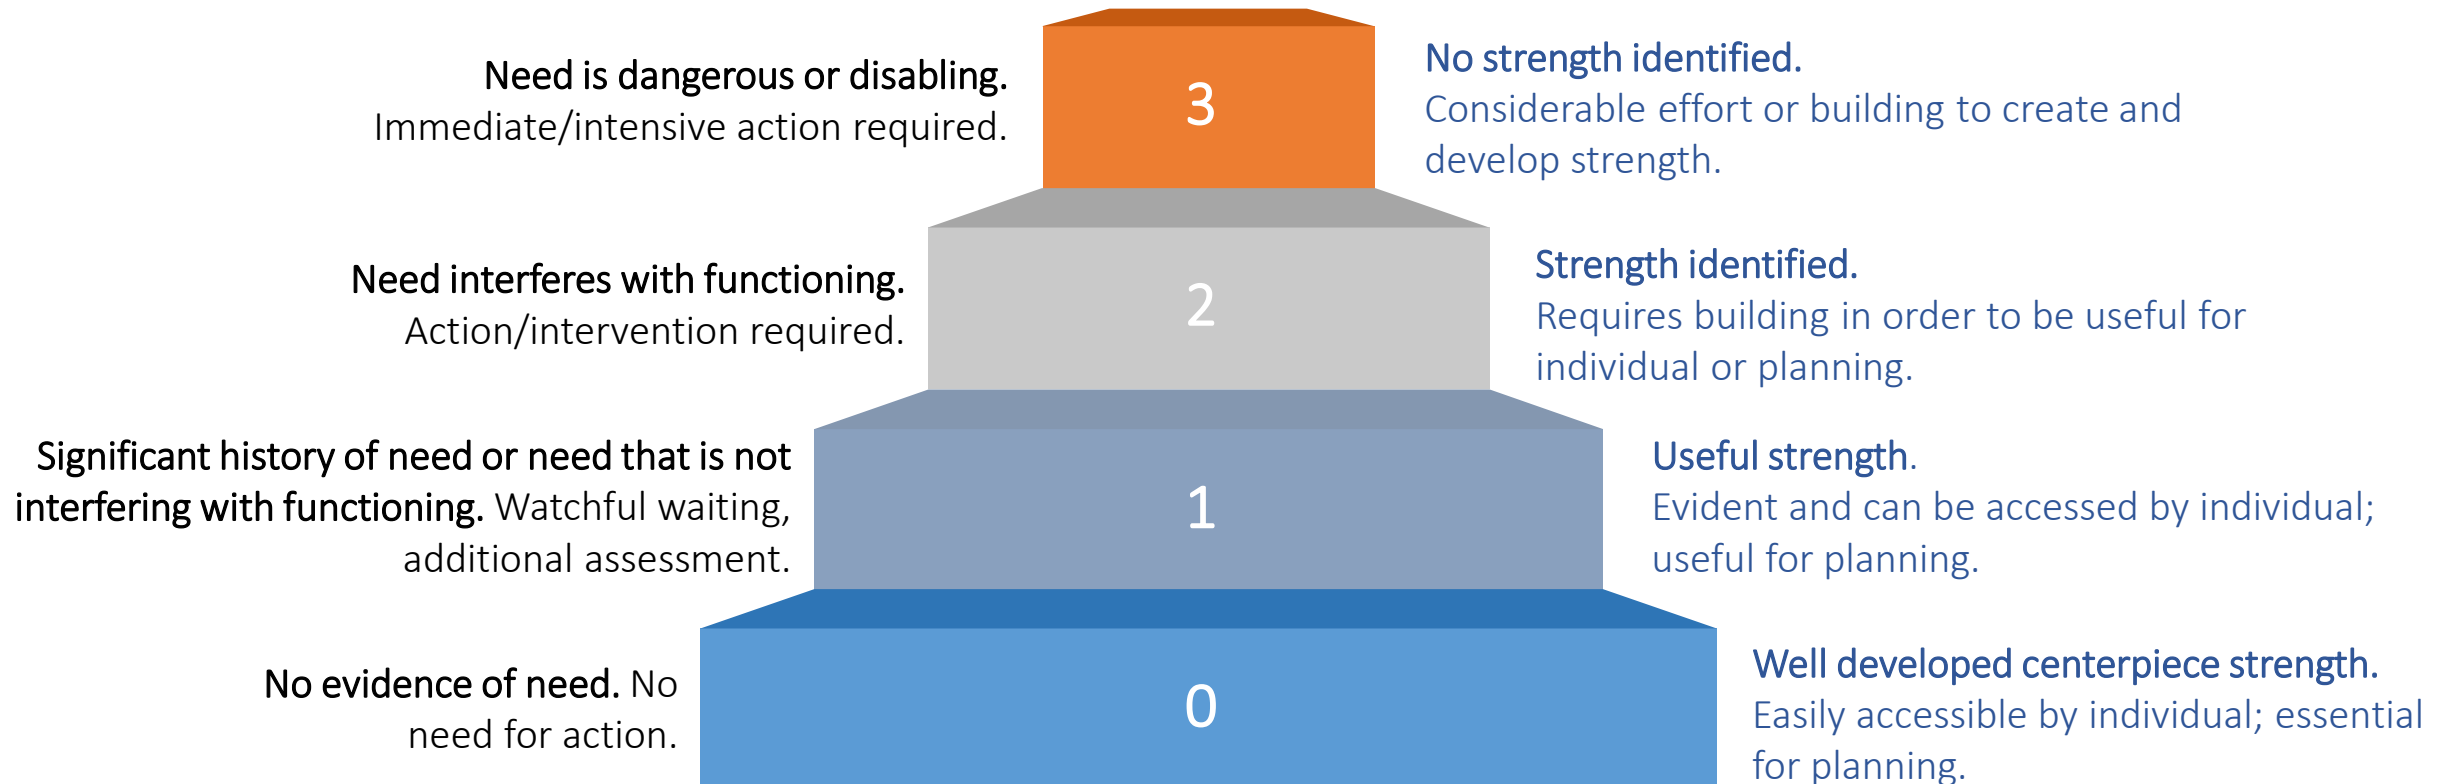

Brief MichiCANS Overview

Action Levels

Status and Impact

Action Levels In Practice

Need Action Levels

- 0 - No need for action
- 1 - Watchful waiting, additional assessment
- 2 - Action/intervention
- 3 - Immediate/intensive action

Have we built consensus around working on this area of need?

- We agree, no need for work = 0
- It never came up in conversation = 0
- Team unsure if work is needed, keep exploring = 1
- No consensus/disagreement, work on aligning perspectives = 1
- Team agrees, select intervention support = 2
- Team agrees and we need to act quickly/intensely = 3

Action Levels In Practice

Strength Action Levels

- 0 - Used as centerpiece of the plan
- 1 - Used in planning
- 2 - Needs development for use in planning
- 3 - Strength not identified

Have we built consensus around the utility of an area strength?

- We can build a plan around this strength = 0
- In use, keep in place = 1
- We can begin using this = 1
- This needs development to use it in a plan = 2
- Unsure if this is a strength, further exploration = 3
- Not a strength, we are considering building = 3

CANS BASIC STRUCTURE

The Michigan CANS Screener core items are rated for all children and youth (see below). Individualized Assessment Modules are triggered by key core items (see italics below). Additional questions are required for the decision models to function.

CORE ITEMS

Life Functioning Domain

Ages 0-5

Family Functioning
Parent/Child Interaction
Social and Emotional Functioning
Early Care and Education
Developmental/Intellectual
Autism Spectrum
Medical/Physical
Motor (Fine/Gross)
Sensory Responsiveness
Communication
Restricted Interests

Ages 6+

Family Functioning
Parent/Child Interaction
Living Situation
Social Functioning
Developmental/Intellectual
Autism Spectrum
Legal (Age 11+)
Medical/Physical
Sleep
School
Job Functioning (Age 16+)
Decision Making

Behavioral/Emotional Needs Domain

Challenges: Ages 0-5

Impulsivity/Hyperactivity (36+ months)
Depression
Anxiety
Oppositional Behavior (36+ months)
Attachment Difficulties
Adjustment to Trauma
Regulatory
Atypical Behaviors
Sleep (12+ months)
Aggression

Ages 6+

Psychosis (Thought Disorder)
Impulsivity/Hyperactivity
Depression
Anxiety
Oppositional Behavior
Conduct (Antisocial Behavior)
Anger Control
Eating Disturbance
Adjustment to Trauma
Substance Use

Life Functioning Domain

The life domains are the different arenas of social interaction found in the lives of children, youth, and their families. This domain rates functioning of the individual with family, peer, school, and community. This section is rated using the needs scale and therefore will highlight any struggles the individual and family are experiencing.

LIFE FUNCTIONING DOMAIN

Ages 0-5 Items

Rating

Family Functioning	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Parent/Child Interaction	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Social and Emot. Functioning	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Early Care and Education	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Developmental/Intellectual	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Autism Spectrum	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Medical/Physical	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Motor (Fine/Gross)	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Sensory Responsiveness	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Restricted Interests	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>

Ages 6+ Items

Rating

Family Functioning	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Parent/Child Interaction	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Living Situation	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Social Functioning	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Developmental/Intellectual	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Autism Spectrum	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Legal (Age 11+)	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Sleep	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
School	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Job Functioning	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Decision Making	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>

Behavioral/Emotional Needs Domain

The ratings in this section identify the behavioral health needs of the youth. **While the CANS is not a diagnostic tool**, it is designed to be consistent with diagnostic communication. In the DSM, a diagnosis is defined by a set of symptoms that is associated with either dysfunction or distress. This is consistent with the ratings of '2' or '3' as described by the action levels.

BEHAVIORAL/EMOTIONAL NEEDS DOMAIN

Ages 0-5 Challenges Items

Rating

Impulsivity/Hyperact. (36+ mos)	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>
Depression	0	<input type="checkbox"/>	1	<input type="checkbox"/>	2	<input type="checkbox"/>	3	<input type="checkbox"/>

Rating

Risk Factors

Substance Exposure in Utero 0 1 2 3

Risk Behaviors

Suicide Risk 0 1 2 3

Non-Suicidal Self-Inj. Behav. 0 1 2 3

Other Self-Harm (Recklessness) 0 1 2 3

Danger to Others 0 1 2 3

Problematic Sexual Behavior 0 1 2 3

Runaway 0 1 2 3

Victimization/Exploitation 0 1 2 3

Cultural Factors Domain

These items identify linguistic or cultural issues for which service providers need to make accommodations (e.g., provide interpreter, finding therapist who speaks family's primary language, and/or ensure that children and youth in placement has the opportunity to participate in cultural rituals associated with their cultural identity).

Items in the Cultural Factors Domain describe difficulties that children and youth may experience or encounter as a result of their membership in any cultural group, and/or because of the relationship between members of that group and members of the dominant society.

CULTURAL FACTORS AND CAREGIVER RESOURCES AND NEEDS DOMAIN

Items	Rating			
Cultural Stress	0 <input type="checkbox"/>	1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
Adj to Traumatic Experiences	0 <input type="checkbox"/>	1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
Mental Health	0 <input type="checkbox"/>	1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
Caregiver Capacity	0 <input type="checkbox"/>	1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>

Items	Rating			
Supervision	0 <input type="checkbox"/>	1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>

<i>Autism Spectrum [C]</i>	0 <input type="checkbox"/>	1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	

Strengths Domain

This domain describes the assets of the child/youth that can be used to advance healthy development. It is important to remember that **strengths are NOT the opposite of needs.**

Increasing a child/youth's strengths while also addressing their behavioral/emotional needs leads to better functioning, and better outcomes, than does focusing just on the child/youth's needs. Identifying areas where strengths can be built is a significant element of service planning. In these items the 'best' assets and resources available to the child/youth are rated based on how accessible and useful those strengths are. These are the only items that use the Strength Rating Scale with action levels.

STRENGTHS DOMAIN

Ages 0-5 Items

	Rating			
Family Strengths	0 <input type="checkbox"/>	1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
Interpersonal	0 <input type="checkbox"/>	1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
Natural Supports	0 <input type="checkbox"/>	1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
Resiliency (Persist. & Adapt.)	0 <input type="checkbox"/>	1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>

Successful Implementation of TCOM Tools

Supervising Skill Development

What Makes a Quality Assessment?

Accurate

- Communicates the information that is known to be true at the time of completion

Collaborative

- Completed in partnership with the family and youth.

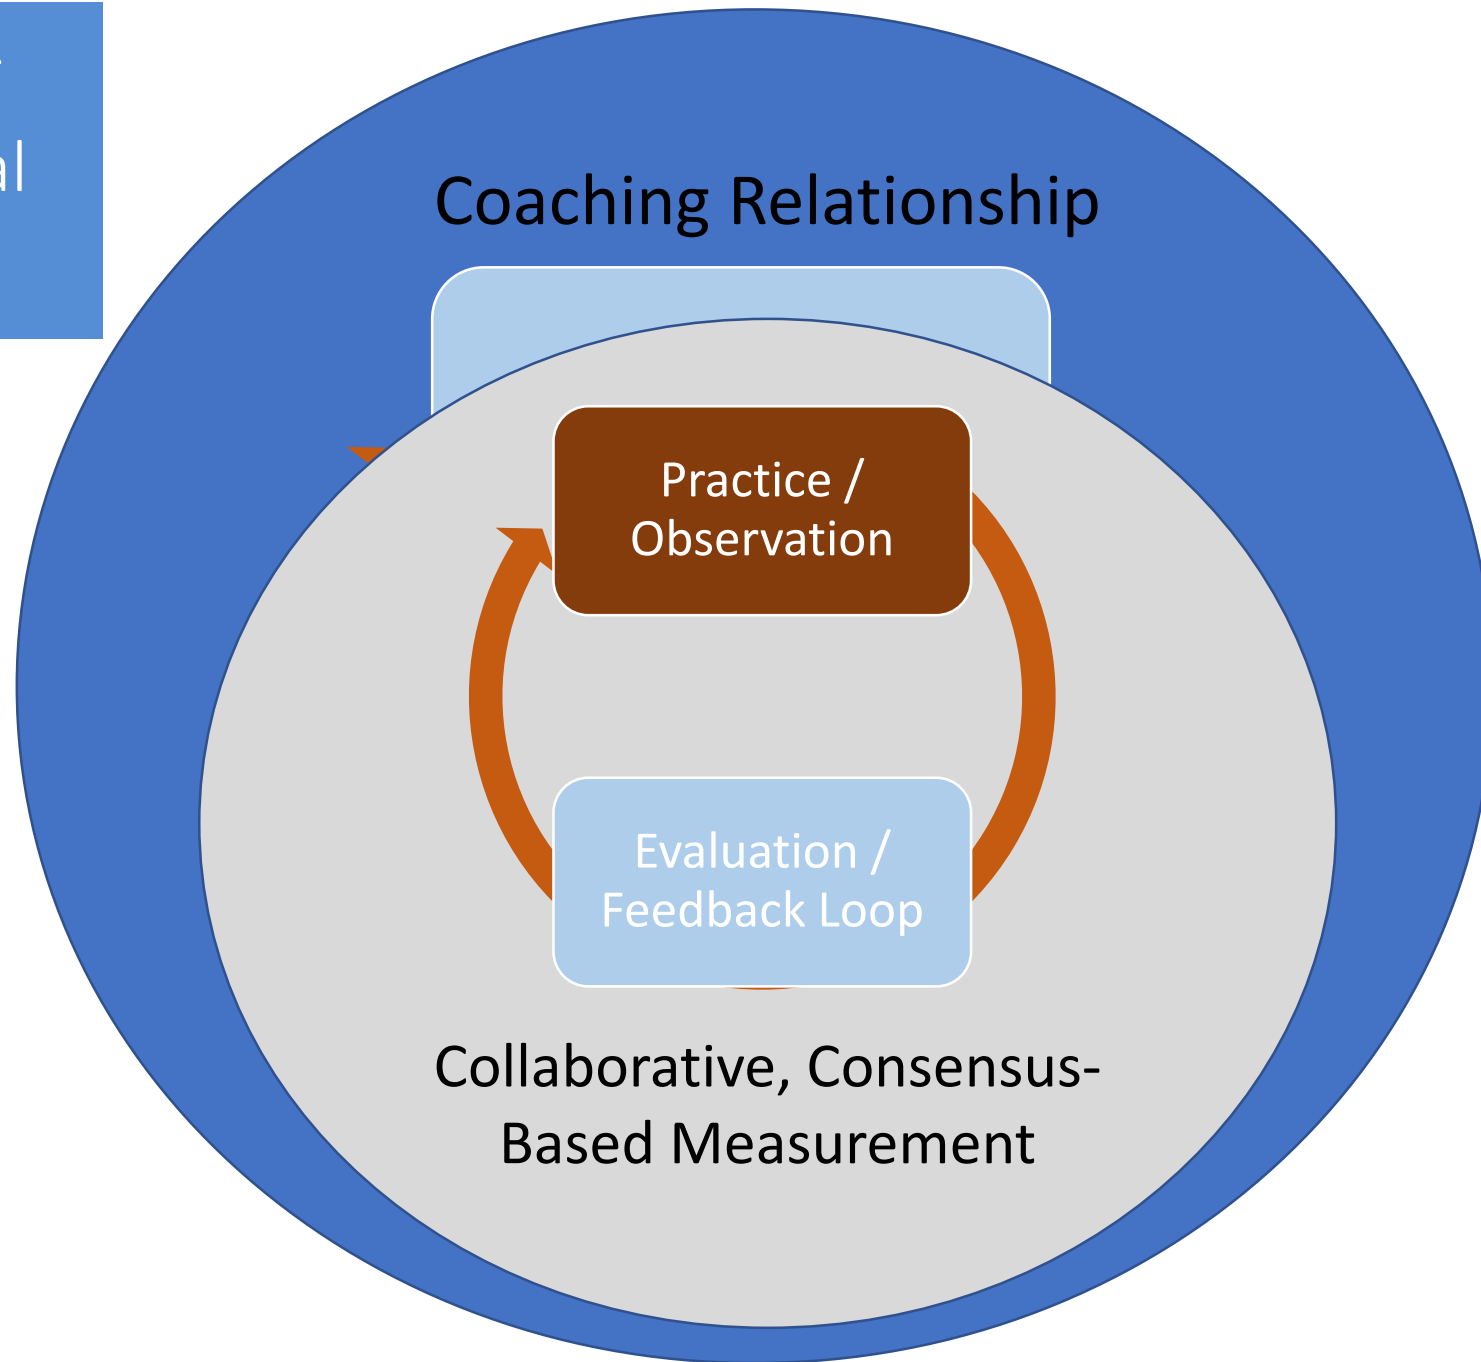

Timely

- Completed within a timeframe that best supports decisions around interventions/planning

Key Elements of Transformational Supervision

Developing skills that Support Collaborative / Consensus Based Assessment (CHQ-IN)

- Discuss the level of comfort using the CANS for organization, communication, decision Support and tracking progress
 - Provide support based upon their level of comfort / confidence with assessments.
 - Determining the best way to increase their comfort level / confidence with CANS.
 - Utilizing shadowing with more seasoned staff.

Have Never Done

Tried, Not Yet Comfortable

Comfortable, but not Routine

Comfortable and Routine

Habits that Support a Transformational System

- Accurately communicate the work across the system in a way that the everyone can understand.
- Focus on the relationship between identified needs/strengths and actions, not on the completion of tasks.
- Identify the connection between intensity of need, intensity of effort and achievement of success.
 - Use the measurement success to identify your strengths.
 - Identify successes (needs resolved, strengths developed).
 - Identify critical components of success.
- Use what you learned to be successful again. Focus on building best practitioners, teach skills related to the achievement of positive change.

TCOM Can Help Us Commit to Participating in a Learning Environment

Fundamental Principle of TCOM

We need to make the system about the people we serve, not about us.

TCOM Data Applications

<i>CANS item</i>	<i>% Presenting</i>	<i>% Ever</i>	<i>% Resolved</i>	<i>% Improved</i>	<i>% Worsened</i>	<i>% Transitioning</i>	<i>% Net gain</i>
Anger control	60.2	85.5	47.1	56.1	14.0	42.0	50.8
Psychosis	10.9	15.9	70.5	74.7	10.8	7.6	52.2
Adjustment to Trauma	48.5	70.7	50.1	60.1	15.2	35.0	50.5
Depression	48.0	64.5	52.0	55.9	5.3	35.8	44.5

Program - Average Impact Report – Anger Control

- OF THE YOUTH WITH ANGER CONTROL NEEDS, THIS PROGRAM SAW A 52.7% IMPROVEMENT ON ANGER CONTROL

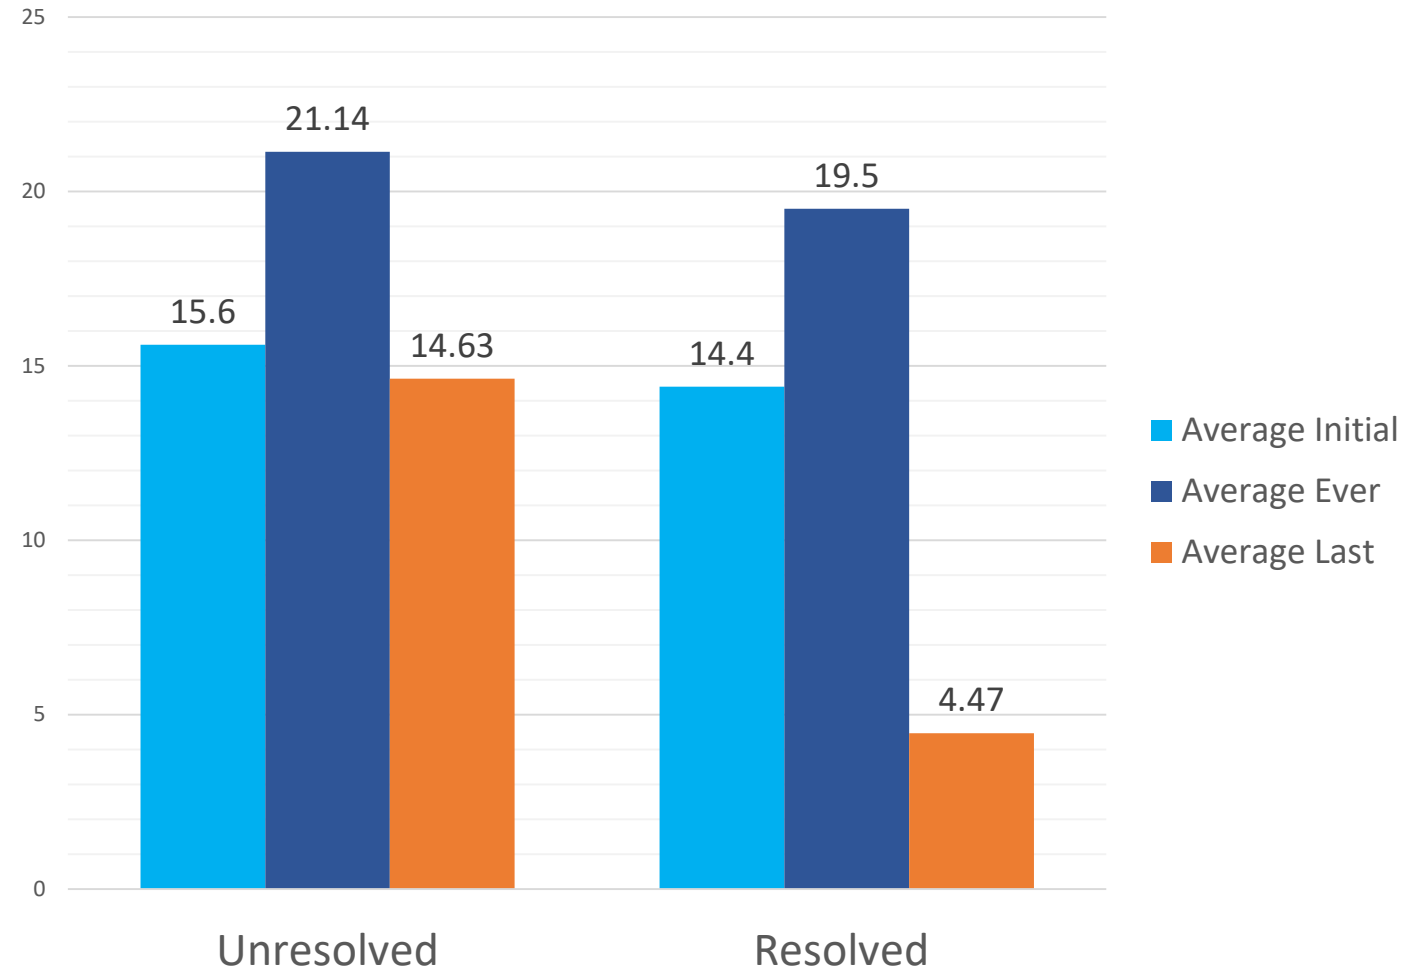

Initial - Ever - Last by Predictive Items

Resolved: A youth that had 2 or more of the predictive items and resolved at least 50% of them by their Last CANS.

Unresolved: A youth that had 2 or more of the predictive items and resolved less than 50% of them by their Last CANS.

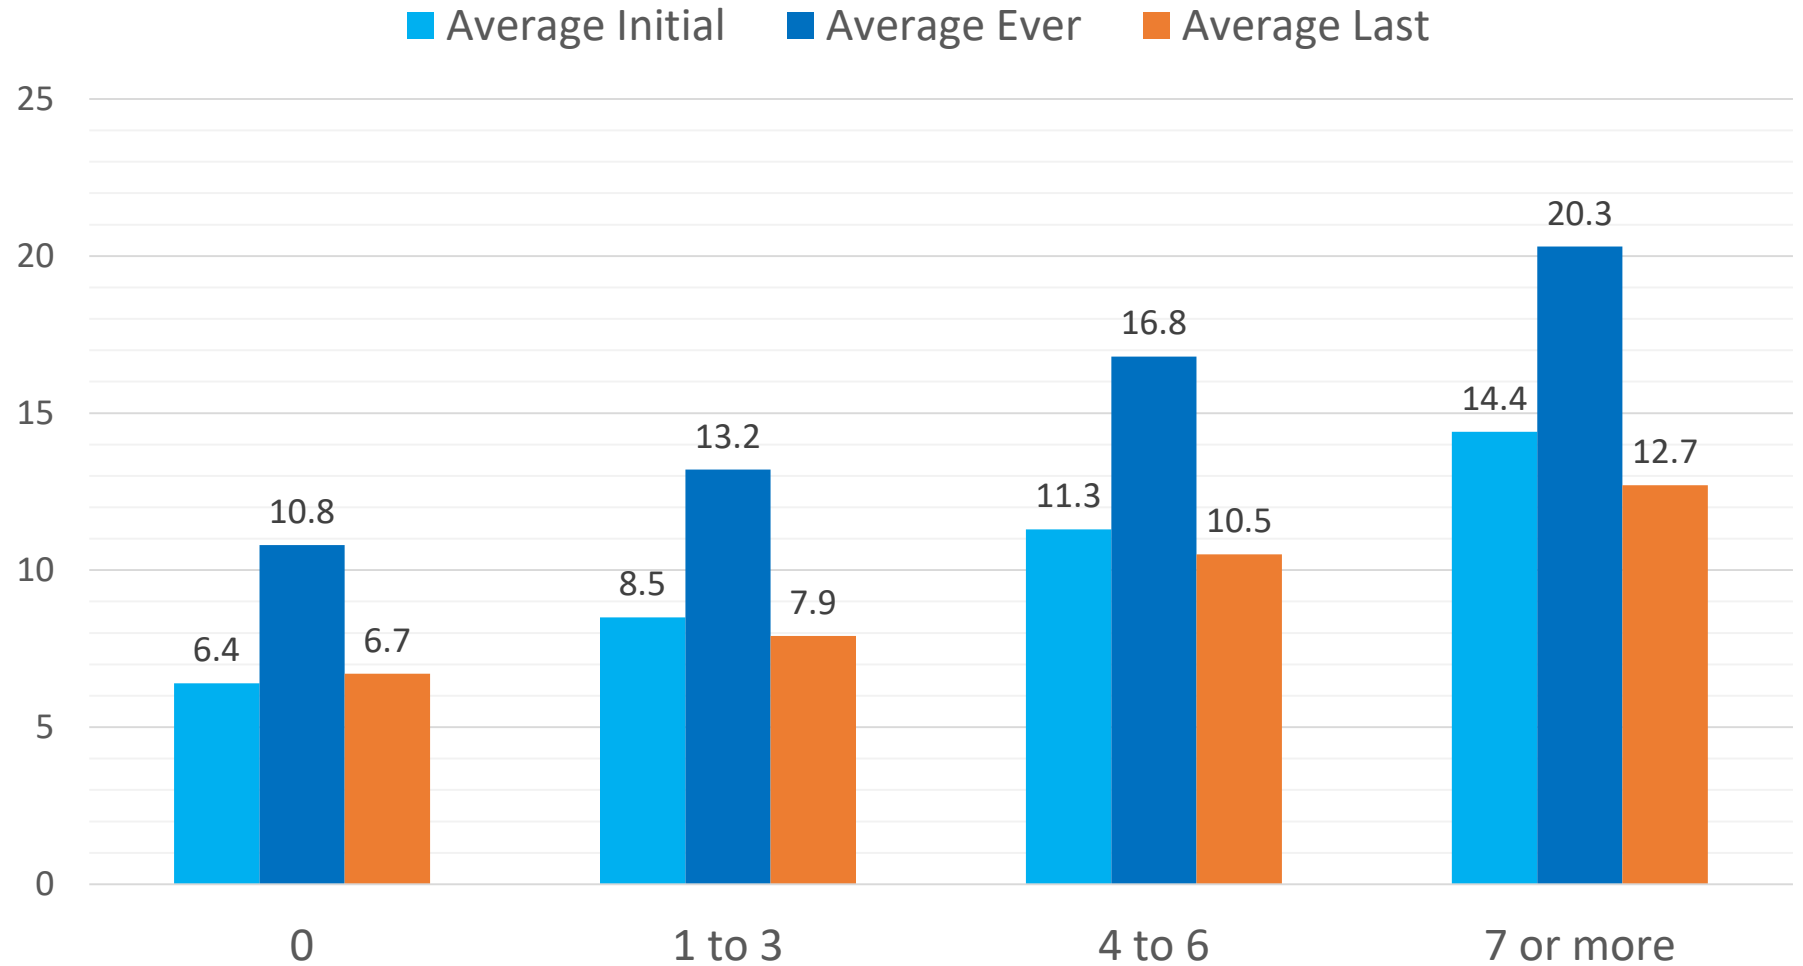

Predictive Items:

- Anger Control
- Decision Making/Judgment
- Emotional Control
- Caregiver - Parenting Stress
- Caregiver - Supervision

Unresolved	92	73.6%	15.6	21.14	14.63	30.8%
Resolved	32	25.6%	14.4	19.5	4.47	77.1%

Average Initial – Ever – Last by Trauma Experiences

# of Trauma Experiences	Average Initial	Average Ever	Average Last	% Change
0	6.4	10.8	6.7	38.0%
1 to 3	8.5	13.2	7.9	40.2%
4 to 6	11.3	16.8	10.5	37.5%
7 or more	14.4	20.3	12.7	37.4%

System Level Transformational Analysis

- What is currently being done with TCOM data to improve the effectiveness of helping systems?

Decision Support Models

❖ Decisions support models are widely used to help assessors and teams with decisions around:

- Levels of care
- Placement types
- Evidence-based practices
- Intensity of Case Management
- Service packages

❖ These models have shown the ability to enhance decision making that leads to improvements in outcome achievement (i.e., reduced needs, enhanced strengths) and decreases in negative outcomes (i.e., decreased placement disruptions, decreased recidivism).

Recent Research Findings with TCOM Data

- ❖ There appears to be no such thing as ‘over-utilization’ of intensive community care for children and families. Under-utilization, however, is a major challenge. Why does utilization management focus on prevent high use, then?
- ❖ The impact of Positive Childhood experiences can outweigh the impact of Adverse Childhood Experiences on mental health needs like Anger, Conduct, Oppositional Behaviors, and Impulsivity/Hyperactivity.
- ❖ For youth with traumatic experiences, strength-building during treatment can increase treatment engagement and the speed of improvement.
- ❖ Using deep neural network models, the early identification of Autism Spectrum Disorders can be accomplished using needs clusters.

Getting Certified
www.TCOMtraining.com

Measurement Properties of the TCOM Tools

Reliability

The degree to which an assessment tool produces stable and consistent results. The TCOM tool's average reliability is 0.70.

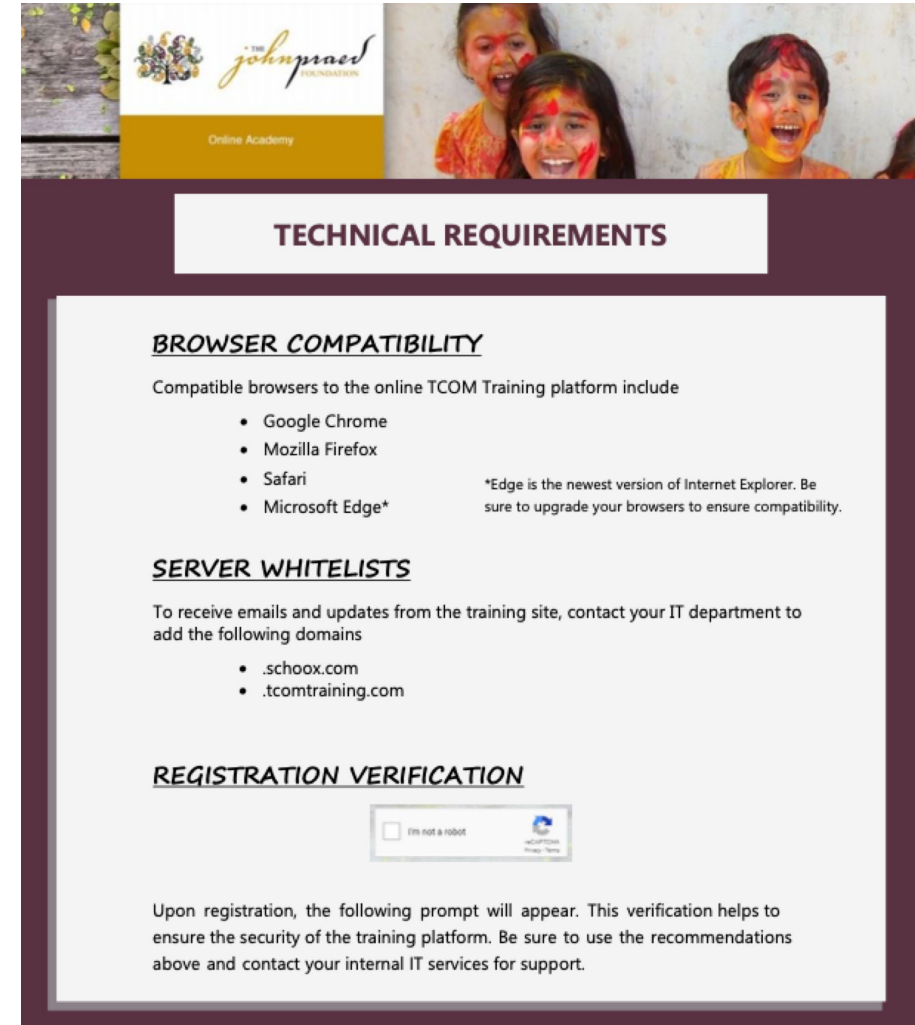

Validity

The degree to which the tool measures what it claims to measure. This means that it's actually measuring the needs and strengths of children, youth, adults, and their families.

MichiCANS Certification

- All certification on the MichiCANS must be completed on the Praed Collaborative Training Platform: tcomtraining.com
- In addition to the certification test, the online training course has additional information on TCOM and the tools, including videos on each item.

The screenshot shows the top of a webpage with the John Praed Foundation logo and 'Online Academy' text. Below this is a header for 'TECHNICAL REQUIREMENTS'. The page is divided into three sections: 'BROWSER COMPATIBILITY', 'SERVER WHITELISTS', and 'REGISTRATION VERIFICATION'. The browser section lists Google Chrome, Mozilla Firefox, Safari, and Microsoft Edge, with a note about upgrading Internet Explorer. The server section lists .schoox.com and .tcomtraining.com. The registration section shows a 'It's not a robot' checkbox and a CAPTCHA icon.

TECHNICAL REQUIREMENTS

BROWSER COMPATIBILITY

Compatible browsers to the online TCOM Training platform include

- Google Chrome
- Mozilla Firefox
- Safari
- Microsoft Edge*

*Edge is the newest version of Internet Explorer. Be sure to upgrade your browsers to ensure compatibility.

SERVER WHITELISTS

To receive emails and updates from the training site, contact your IT department to add the following domains

- .schoox.com
- .tcomtraining.com

REGISTRATION VERIFICATION

It's not a robot

UPON REGISTRATION

Upon registration, the following prompt will appear. This verification helps to ensure the security of the training platform. Be sure to use the recommendations above and contact your internal IT services for support.

MichiCANS Certification

- Each person must create their own account.
- All users must pass a certification test at .70 or higher.
- Annual certification is required.

NEW USERS TO TCOM TRAINING

*This resource is for users who are new to TCOM Training. If you previously had an account on the previous platform (LearnerNation), reference the **Returning Users** support handout.*

1. Enter <https://www.tcomtraining.com> into your browser.
2. Click the "Sign Up" link above the login field.
3. Input the following *required* information:
 - First Name
 - Last Name
 - Email
 - Password
 - Country
 - Region
 - Agency
4. Complete the "I'm not a robot" verification and click "Sign Up Now."
*Need help with the verification? Reference the **Technical Requirements** support handout.*

Logging in after Registration

1. Enter your email/username and password.
2. Click "Login."

Forgot your Password?

Click on the "Forgot your password?" link below the log-in fields. Enter your email and the system will send you a message with reset instructions.
