

CAFAS^(R) Booster - Jeopardy! Trainer Key

CAFAS [®] Basics		Miscellaneous	Rules for Rating	Subscale Specifics I	Subscale Specifics II
00 - Q	The full title "CAFAS" stands for	The name of the person who developed the CAFAS [®]	Times a CAFAS [®] is rated for a client (administrations)	True or False: If a child is removed from their parent's home for any reason they get an automatic 30 on the Home Subscale	The rule for scoring the School subscale in the summer
100 - A	Child and Adolescent Functional Assessment Scale [®]	Kay Hodges, PhD	Intake, Every 3 months while Active, Exit, (Optional) Follow-up	False - If they are removed for abuse or neglect this would be reflected on the Caregiver Resources Subscales but not in the primary subscales describing the youth's behaviors.	Reference behaviors present at the end of the last school year
200 - Q	The number of different caregiver households that can be scored with the CAFAS [®] Caregiver Subscales.	The highest total score a child or adolescent could obtain on the CAFAS [®]	The time period covered when rating the CAFAS [®]	The subscale that will always reflect a functional impairment (have a score greater than zero) if a youth deliberately plays with fire.	Alice has severe anorexia. Despite medical problems from having a BMI of 14, she firmly continues to believe she looks "fat" and is trying to lose more weight. The two subscales with items that reflect these behaviors.
200 - A	3	240	Every three months. <i>At intake raters might extend the time period to capture the referral problem if access to services was delayed.</i>	Community	Self-Harmful Behavior and Thinking
300 - Q	The two primary CAFAS [®] Caregiver Resources Subscales	A way a child could misbehave or experience negative emotional states and still get a low CAFAS total score	The age range CAFAS [®] assessments are required for by the Michigan Department of Community Health (MDCH) as a condition of receiving SED (Serious Emotional Disturbance) services	The two subscales that will reflect functional impairment (have a score higher than zero) when a youth is failing school because they are too depressed to do the work	True or False: A youth is contemplating suicide. These thoughts would be scored on the Thinking Subscale.
300 - A	Material Needs and Family/Social Support	If the misbehavior is developmentally normal or the negative emotions are appropriate to events and do not impact functioning.	7 through 17	School and Moods	FALSE
400 - Q	Four sources of information that can be referenced to score the CAFAS	What it means to say CAFAS [®] scores are "reliable"	The level of impairment a rater starts with (first considers items in) when preparing to rate any CAFAS [®] subscale	The two subscales that will reflect functional impairment (have a score higher than zero) when a youth is depressed and has a plan to commit suicide	A youth is experiencing vivid hallucinations. An explanation for an accurate Thinking Subscale score of No Impairment ("zero").
400 - A	Child, Parent, Medical Records, School Records, Juvenile Records, Direct Observation, Other Caregiver Reports...	Any trained rater, on any given day, will score the CAFAS [®] the same as any other rater on any other day	Severe (30)	Moods and Self-Harmful Behavior	Fever/Medical, Substance Ingestion, Cultural/Religious accepted experience
500 - Q	All of the subscales that rate a child or adolescent's behavior on the CAFAS [®]	What it means to say the CAFAS [®] is "valid"	The way to rate if a caregiver or teacher reports that a child has a problem that the child denies (i.e. shoplifting)	(video) A typical errand with Dad. Which two subscales will this behavior be rated on?	Explanation for a youth receiving a Severe score (30) on the Substance Use Subscale for smoking marijuana once a week with no significant consequences reported
500 - A	School, Home, Community, Behavior Toward Others, Moods/Emotions, Self-Harmful Behavior, Substance Use, Thinking	The CAFAS [®] measures what it is supposed to or claims to measure (functional impairment).	Rate it as if it were known to be true. The rater may then go to the "Exception" item for that Subscale's severity level, choose this item and then write additional comments.	Home and Behavior Toward Others	Youth is 12 or younger
