

PECFAS Quiz for School/Daycare Subscale

- 1. Cathy, age 5, is enrolled in a well-structured childcare program; after a few days of attending, for the past 3 weeks she refuses to go to the program.**
- 2. Terri, age 5, is frequently off-task – she runs around the pre-school classroom grabbing the belongings of other children and pushing their books and papers to the floor; this is affecting the other students' ability to work. Teacher has implemented an incentive program for Terri – she earns a star each time she remains on-task for a (brief) activity.**
- 3. 4-year-old is happy and sociable at pre-school, but often doesn't listen to instructions or listen to the teacher.**
- 4. Johnny, age 4, consistently performs well below other students in his class although he does not have any documented learning problem. Despite teacher providing additional assistance, Johnny is still more than a year behind what could be expected given his age.**

PECFAS Quiz for School/Daycare Subscale

- 5. Child care staff must repeatedly remind 4 yr old child not to put his hands down his pants during circle time. They have him sit next to teacher or an aide, so he can be more easily cued.**
- 6. Childcare staff must regularly separate Sally, age 4 from two other children during small-group activities because it leads to arguing and them all being generally off-task. If allowed to play with these two, Sally is disobedient to teacher when asked to sit down or stop arguing.**
- 7. 6-year-old typically acts his age but has occasional temper tantrums at school since his parents got divorced last month.**
- 8. 4-year old child has been asked to leave child care program because he has repeatedly bitten other children.**

PECFAS Scoring Quiz for School/Daycare Subscale

- 9. 5-yr old child is not completing work correctly or satisfactorily because he does not pay attention when directions are given. He has been placed at the front of the classroom so that teacher can help keep him on-task.**
- 10. 6 yr old child is very wiggly and fidgety while teacher is talking - much more so than her classmates - but still completes work satisfactorily and doesn't disrupt others. She responds well to teacher.**

Quiz Questions

PECFAS Scoring for Home Subscale

- ~~1. 4-year-old boy says that he's going to run away and leaves home, goes to a friend's house, asking friend's mother if he can stay.~~**
- 2. 6-year-old typically acts age-appropriately but sometimes cries and whines to compete for attention with new baby in the family.**
- 3. Parents don't take Frank, age 5 to a restaurant because he is such a picky eater that he often can find nothing that he likes on the menu.**
- 4. Pat, a 4-year-old repeatedly throws temper tantrums and screams at her parents that she hates them when she does not get her way.**
- 5. 5-year-old is placed in temporary foster care after trying to smother baby brother with a pillow.**

Quiz Questions
PECFAS Scoring for Home Subscale

- 6. Even though 6-year-old Mandy knows how to tie her shoes, she sometimes insists on having mom or dad do it for her.**
- 7. George, age 4, repeatedly takes his clothes back off after dad helps him to get dressed.**
- 8. Amanda, age 5, generally behaves okay but occasionally goes through periods of several days being uncooperative and disobedient.**
- 9. 6-year-old cries and pouts when mom is talking on the phone rather than paying attention to her.**
- 10. At every mealtime, Betsy, a 5-year-old child, will not eat any food without Mom feeding her.**

Quiz Questions

PECFAS Scoring for Community Role Performance

- 1. Mike, age 4 has been repeatedly caught playing with matches and lighting small pieces of paper towels in the kitchen despite warnings about the danger of fire.**
- 2. Child, age 5, has twice stolen toys and comic books from neighborhood store. Child is fully aware that it is wrong to steal.**
- 3. Katie, age 4, once got in trouble after being caught picking roses from a neighbor's garden, but problem was resolved after neighbor spoke to child.**
- 4. 4-yr old sometimes plays with other children who have been known to bully younger children in the neighborhood.**
- 5. 6-year-old boy has attempted, on more than one occasion, to get 4-year-old child next door to touch his penis.**

Quiz Questions

PECFAS Scoring for Community Role Performance

- ~~6. 6-year-old child asked other children to lay on top of him – all the children were fully clothed. Nothing actually happened and he didn't actually try to do anything. However, other parents don't want their children to play with him without adult supervision.~~
7. 4-year-old took candy from the local gas station even though mom has caught her before and told her that it is wrong to steal.
8. 5-year-old boy has threatened on more than one occasion to beat up a younger child in the neighborhood if the child tells on him.
9. 4-year-old boy set fire to neighbor's doghouse "to see what dog would do if it was on fire."

- 7. 5 year old girl throws temper tantrums, often in restaurants, stores and other public places, several times a day.**
- 8. 6-year old tortures family cat by hitting it with a hammer, and locking in the closet despite mom and dad's attempts to stop behavior.**
- 9. 5-year-old often tells friends what to do while they are playing (i.e., always has to be the "mother" or "teacher" in role-playing situations).**
- 10. Mother observes her 5-year-old repeatedly being purposefully**

Quiz Questions

PECFAS Scoring for Moods/ Emotions

- 1. 4 year old girl is depressed and refused to go to school for 2 weeks after mother was diagnosed with breast cancer. Child seems worried and doesn't want to leave mother.**
- 2. John's (age 5) feelings are hurt very easily if he makes even minor mistakes. He is more distressed by this than most kids his age.**
- 3. 6-year-old insists on sleeping in bed with her mother, despite mother wanting the child to sleep in her own bed, because child is afraid of typical "old-house" creaks.**
- 4. 6-year-old child generally acts her age but since a new baby sister has arrived, sometimes sucks her thumb.**
- 5. 4 year old is sad much of the time, takes a long time to fall asleep at night despite trying, and has decreased appetite.**

Quiz Questions

PECFAS Scoring for Moods/ Emotions

- 6. 4 year old child cries all day at preschool because "he wants to be with his mother," and preschool staff have been unable to calm him.**
- 7. 5 year old boy has become anxious- has nightmares about three times a week.**
- 8. 4 year old child cries for long periods when left with the sitter, although sitter can usually calm child down after some time has passed.**
- 9. 4 year old appears sad at daycare for a couple of days at a time then returns to normal "bubbly" self before showing signs of sadness again.**
- 10. Child (age 6) seems strange to other children because her mood often appears totally unrelated to what is happening around her.**

Quiz Questions

PECFAS Scoring for Self-Harmful Behavior

- 1. 4 year old boy has talked about wanting to kill himself several times. Says he doesn't really want to be dead.**
- 2. 5 year old girl ran out into the busy street when angry, even though parents have made her aware of the danger.**
- 3. 4 year old boy likes to play "Superman" by jumping down a couple of steps with his "cape" flowing behind him.**
- 4. 6-year-old girl used scissors to cut her arm repeatedly after being transferred to a new school. Denied wanting to kill herself.**

Quiz Questions

PECFAS Scoring for Self-Harmful Behavior

- 5. 5 year old has numerous small marks on hands. He indicated that it is from using a paper clip to scratch himself.**
- 6. 5 year old boy repeatedly bangs head hard against the wall despite efforts to stop him.**
- 7. 5-year-old boy says that he is going to kill himself with his toy gun after frequently telling family members that he doesn't want to live anymore.**

Quiz Questions

PECFAS Scoring for Thinking/Communication

- ~~1. 4 year old child sometimes pretends to talk to real friends when they are not present (i.e., pretends that friends are in the car or at the restaurant with family). Mother reports that child's brother did the same thing at her age.~~
2. 4 year old boy constantly rocks back and forth in his seat, humming loudly. He has been removed from specialized preschool classroom for the disruption that he caused to the classroom environment.
3. Teacher reports that a 5 year old is preoccupied with death; he is constantly drawing pictures of dead people and animals. His interest in this, as reflected in writing and artwork, is much more than is typical for kids his age. Referred to counselor for these concerns.
4. 4 year old won't talk to others outside of his, despite being capable of doing so; he hasn't been diagnosed with any physical or sensory disability. Mother says that this is unusual for her family/culture.
5. 5 year old frequently shares thoughts that are disorganized and not relevant to situation, more than other children of the same

age.
