WELCOME TO OUR PROVIDER NETWORK EDITION

◆
An update from our
VP of Compliance

Sheree Jackson, MA, CHPC

Minimizing fraud, waste, and abuse (FWA) risk is crucial for maintaining the integrity of healthcare systems and ensuring that resources are used effectively. FWA not only leads to significant financial losses but can also undermine trust in behavioral healthcare providers.

Effective management of FWA risks can enhance operational efficiency and improve the quality of care, as funds saved can be redirected to vital services and initiatives. Furthermore, a strong commitment to minimizing FWA fosters public confidence and supports the ethical delivery of behavioral healthcare, ultimately benefiting patients and communities alike.

In this newsletter you will find:

Essentials for maintaining patient trust & FWA initiatives. Keep Reading!

Let Us Tell You About DWIHN's Quality Assurance Performance Improvement Plan (QAPIP)

The Quality Assurance Performance Improvement Plan (QAPIP) Evaluation is an annual document that assesses and identifies DWIHN's improvements, achievements and outcomes throughout the year. The QAPIP includes the six (6) pillars that are identified in DWIHN's Strategic Plan: Customer, Access, Quality, Finance, Advocacy and Work Force Development. As part of the QAPIP Evaluation, the Work Plan identifies goals and objectives which includes an assessment of the results and noted outcomes. The QAPIP 2022 Annual Evaluation and Work Plan is available to providers, stakeholders and members on DWIHN's [website](https://dwihn.org/Quality-Assessment-Performance-Improvement-Program-QAPIP.id.1734.htm) at: <https://dwihn.org/Quality-Assessment-Performance-Improvement-Program-QAPIP.id.1734.htm>.

ACCESS, a DWIHN Provider with a special connection to the Arab American Community, is leading a capital campaign to raise \$25 million to establish a brand-new 51,000 square-foot substance use recovery center. The new ACCESS Recovery Center will offer a holistic approach to treatment and recovery, providing person-centered care tailored to individuals and families. The Center specializes in the treatment of alcoholism, drug addiction, opioid addiction, and substance misuse. It will be built in the South-end, south of Michigan Avenue and west of Wyoming Avenue, a major intersection near Southwest Detroit and Dearborn communities.

Re: IPOS Template Updates
Date: August 14, 2024

Detroit Wayne Integrated Health Network (DWIHN) has made crucial updates to the standardized Individual Plan of Service (IPOS) based on feedback from the Michigan Department of Health and Human Services. These updates are designed to ensure that the plan clearly identifies the supports and services provided to support member goals and objectives, and to facilitate compliance with regulatory documentation requirements.

It is mandatory for CRSP providers to contact their PCE PM to incorporate these updates into their PCE system by September 30, 2024.

A summary of changes made to the IPOS template includes that follows:

- The addition of a text box has been added to document the rationale for completing the pre-plan and PCP meeting on the same day.
- A yes/no statement about being informed of services and providers available. Revisions were made to the language and questions within the HCBS section. A section was added to document the amount, scope, and frequency of services to support a goal / objective.

For a more detailed review of the updates, please attend the next Quality Operations Technical Assistance Workgroup on September 25, 2024. Your engagement in this process is vital to ensuring the best possible services for our members.

Thank you for your attention to this matter.
